

Mixed Media Collage Class

Suggested Materials list

Updated: spring 08

Many collage tools and materials will be available to use during class, but I would like for you to provide the following materials for your final collage. Please don't purchase any materials until I have a chance to talk about them with you:

--collage materials (photos, clippings, found words, old cards, cloth, yarn, rick-rack, news clippings, labels, interesting papers, tissue paper, ads, old art, clothes, etc.)

--a surface for the final collage (masonite, heavy watercolor paper, cardboard, etc.)

--glue or adhesive (white glue, acrylic gel medium, Mod Podge, etc.)

--a scissors

--additional art materials to mix in (acrylic paints, watercolors, oil crayons, wax, charcoal, etc.)

Thanks –

Lora Jost
