I want to thank you so much for all of your hard work over the last couple of weeks. I was very impressed with the incredible talent I saw on display throughout both the auditions and callbacks for Spring Awakening and then, last night and tonight, for The Crucible. This show is iconic; it has been done often and it has been done well. Look up some of your favorite actors online, odds are, they've done this show...but none of them will ever have done it quite as well as us. I can't wait to see you all in June and get to work on this incredible piece of theatre.
